Jannis Fischer, Co-Founder and CEO, Positrigo

“Venture Leaders gave us the unique opportunity to dive into the ecosystem of US startups and VCs. This is very helpful to understand the US market and funding opportunities better.”

Those eligible to participate are:

— Founding and managing members of Switzerland-based medtech startups;
— Fundraising and ready to grow business in the US with international investors;
— Building a global medtech startup with first market validation.

Venture Leaders have a clear-cut goal. They envision themselves as global players and want to take the first step towards their global expansion.

The Investor and Business Development Roadshow to the Boston area allow for a deep-dive into the global medtech scene and includes public and private pitch sessions, high-level networking opportunities, company visits and individual business development activities.

Venture Leaders Medtech is organized by Venturelab. The program with a value of CHF 10,000 is offered free of charge to the winner’s thanks to the support of EPF Lausanne, ETH Zurich, Hansjörg Wyss, Kellerhals Carrard, Paul Scherrer Institut, Swissnex in Boston, University of Zurich, Canton Vaud, YPSOMED, and Canton Zurich.
